**From:** Sue Kutay, Global Product Manager  
**To:** Customers and Channel Partners for the KODAK FLEXCEL NX System  
**Subject: New packaging for KODAK FLEXCEL Thermal Imaging Layer (TIL-R)**

To our valued customers and channel partners:

**This notification is for information only.**

As of May 2022, we will be implementing a redesign in the packaging for our Thermal Imaging Layer (TIL-R). The redesign creates TIL-R boxes that are the same dimensions as the 5065 plate boxes which allows all of them to be shipped on a single pallet. The redesign and new shipping configuration provide an increase in shipping stability as well as a decrease in waste.

For those customers that buy large quantities of TIL-R in a single order, the maximum stack height will now be standardized to eight boxes of TIL-R per pallet.

**What action do I need to take?**

Please share this information with others in your business, as appropriate. Please continue to use the old TIL-R catalog numbers until notified by
