

Subject Line Updated Product Numbers and Quantities for FLEXCEL NXH 1.14- and 1.70-MM 4260 Kits, Plates and Film

This notification is for informational purposes only.

As part of our ongoing commitment to improving sustainability and efficiency within our supply chain, beginning March 2024 **product numbers and quantities for 4260 (1067 x 1524mm) FLEXCEL NXH Plate Kits in 1.14 MM and 1.70 MM thicknesses will be updated.**

For the impacted products, the following changes will go into effect

Kits – Standardized at 30 plates and film per kit.

Plates – A new plate box will increase the number of plates per box from 10 to 15 while allowing for double stacking of pallets without the use of crates.

Film – Film boxes will hold 30 sheets.

All components will have new product numbers.

What action do I need to take?

If you order plate kits, please continue to order your current kit until you are notified by Miraclon Customer Care to begin ordering using the new kit numbers.

If you order plates or TIL/TIL-R individually, please continue to order your current product until you are notified by Miraclon Customer Care to begin using the new product numbers.

Please note – as we transition to new product numbers you may receive orders that contain the discontinued product numbers, the new product numbers, or a combination of both.

What products are included in these changes?

For a complete list of impacted products and their updated product numbers please refer to the following link [Miraclon Product Notification](#)
